Subject: RE: TAT Tribal WQS

Hi Mary, Happy new year. I'm available this afternoon, tomorrow, Friday or next week. Let me know if you want to plan on a specific time. You can also just give me a ring whenever: 303-312-6550. It'd be touch base on a few WQS things and generally catch up.

Here are some resources for criteria tables that may be of interest to you.

- 1) Model template – available from [this link](#) for download. It's a tiny bit dated (2018) so it doesn't reflect our current aluminum criteria.
 - a. The model template is not my favorite format because you have to go to separate tables for each constituent (and know that it exists in both tables).
 - b. It is, however, better than nothing (ringing endorsement, eh?).
- 2) [CSKT's](#) (go to PDF page 59) WQS criteria tables are in a nice format.
 - a. It's really nice to have as much as possible in as few of tables as possible.
 - b. If you are interested in this format, let me know and I can ask if they're ok sharing the word versions with you.
- 3) If TAT already has a criteria table format that you like and want to keep working with, you probably want to refer directly to EPA's criteria websites.
 - a. [Aquatic life criteria](#)
 - b. [Human health criteria](#)
 - c. [Recreational criteria](#)

Subject: TAT Tribal WQS

Hey Maggie,

Can I get the most recent version of the Numeric Criteria tables for our Tribal WQS? We want to amend the our WQS. Also, could I set up a quick call with you?

Thank you so much!

- Mary
